

NEW FOR 2009

PROWLER TRIDENT 13™

THE ULTIMATE FISHING KAYAK

A scaled down version of our popular Trident 15. The Trident 13 has hit the perfect balance of speed, maneuverability, performance and stability. Slightly different from the Trident 15, the Trident 13 features adjustable foot braces to fit nearly every leg length comfortably. The comfortable Comfort Plus seat back combined with the adjustable foot pegs allows almost any paddler to hit their comfort zone in stride. The Trident 13 performs well in almost any water application but you'll notice the superb performance in breaking surf and rough seas.
